THE JAYCEE CREED

We Believe:

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won, by free men through free enterprise;

That government should be of laws rather than of men;

That earth's greatest treasure lies in human personality;

And that service to humanity is the best work of life.

C. William Brownfield

FROM THE PRESIDENT'S DESK

Fellow Senators,

I am pleased to serve as your AZ JCI Senate President this past year and excited to come back for the 2022-2023 year. It is truly an honor and thank you for the opportunity!! It's been a tough year with quite a few losses, however, like the great state we are, we forged on as close as ever.

Thank you so much to **ALL** of the AZ JCI Senate Members for your support. AZ wouldn't be the close knit State it is without this family dynamic. I do brag on my PIE meetings that AZ has the BEST members.

It was great seeing everyone here in Prescott for our annual board meeting. Glad you all made the trek up the hill to the cooler climate and thank goodness I17 was mostly trouble free. (much better than meetings past anyway)

SOCIALS

The Virtual Social keeps rocking along, seems like lots of our Senators have something to contribute and enjoy reading it. If you are not getting it an would like to, send us an email at aashane@aol.com and we will gladly add you to the list. Real socials, the kind where we actually get together have just not happened much lately, perhaps because of the events that gathered us recently. If

anyone has the slightest reason to do a happy hour, usually on Saturday afternoon and know of a good pub (cold AC and cold beer) let us know and we'll put out the word.

ADOPT A STREET

The next time that we will do this is in October. Some of us plan on attending Nevada Day in Carson City on the last weekend, most probably will be early in the month. We will let you know when it gets closer.

**NOTE ABOUT JIMMY
ALLEN #62685**

Fellow Senators,
Recently it came to my attention that one of our Senate family Jimmy Allen #62685 has been diagnosed with dementia. We have been friends for a long time. I reached out to Susan and spoke to her and Jimmy for about an hour. The situation is sad to say the least. I asked Susan to write an update to Jimmy's condition. Please keep them in your prayers.....

What is FTD
FTD is the most common form of dementia for the people under 60 years old .

The complexity of the human brain is astounding. Our highly developed frontal and temporal lobes distinguish us from other mammals and provide the capacity to learn,analyze information, communicate and empathize with others.The tragedy of FTD is that it is these abilities- those we connect most closely with our human experience- that become most impaired.

The frontal lobes are responsible for "executive function" such as planning, organizing,prioritizing and sequencing our actions. The self-awareness that is critical for monitoring our behavior is also rooted in the frontal lobes. These skills allow us to hold back rude comments or impulsive actions and act appropriately in social situations.

The temporal lobes are involved in language and communication; they make it possible for us to speak and understand words and regulate our emotions by connecting them object and events.The ability to recognize faces is based in the temporal lobes.

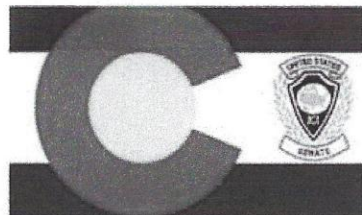

Symptoms of FTD often involves:

- Significant changes in behavior and personality
- Loss of empathy
- Decline of executive function(planning, organizing,decision making)
- Poor judgement
- Apathy and withdrawal from favored activities and people.
- Innappropriate social behaviors
- Halting speech or difficulty understanding words or sentences
- Motor and movement problems similar to the

symptoms of Parkinson's and / or ALS.

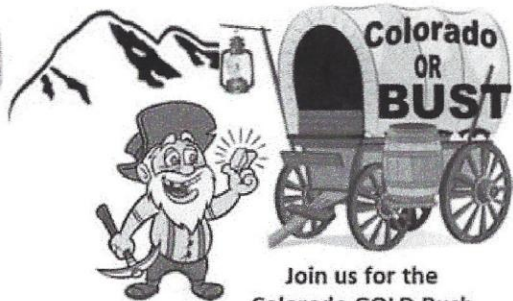

The life expectancy of someone diagnosed with FTD is 7- 13 years on average,but can range from 2-20 years. Although age of onset ranges from 21 to 84 years.the majority of FTD cases occur between 45 and 64 years old. FTD's estimated U.S. prevalence is around 60,000 cases .
